## HALF A HUNDRED KILLED AND INJURED IN RAILWAY WRECK

"Teachers Special" Bound From New York to Washington Left Track Going at Fifty Miles Hour, Near Martin, N. J.

Special to Telegram.  
Easton, Pa., April 29.—Seven teachers are missing and of two score or more injured two persons are in so serious a condition that they are thought to be dying as the result of the train wreck at Martins creek, eight miles north of here this afternoon.

The accident was caused by a spreading rail. The train, which was behind time, was going at a fast rate of speed when the wheels of the forward coach left the track as the rails spread and for a fraction of a second there was a bumping along the cross ties. The train then toppled over and rolled down the steep bank, the cars turning over and over. One of the sleepers in its wild flight ran into a tank car and both were piled at the foot of the embankment together. The wreckage soon caught fire at the bottom of the embankment.

Special to Telegram.  
Santiago, Cuba, April 29.—Great excitement was caused in this city and throughout the island today by earthquake shocks. No damage has been reported.

Caton's Pardon Revoked.

Raleigh, April 29.—Governor Kitchin revokes the conditional pardon of E. G. Caton, of Mecklenburg county, who was sentenced to eighteen months on the roads for immoral conduct, and who was allowed a pardon conditioned on good behavior, last October. His indignant neighbors, made and substantiated charges that he had resumed even more flagrant violations of the law.

## ONLY TEN CITIES WILL HAVE TWO TICKET WINDOWS

Special to Telegram.  
Raleigh, April 29.—The corporation commission exempts forty four towns of two thousand and more inhabitants from the requirements for railroad companies to maintain two windows for tickets at stations one especially for exchanging tickets for mileage. They will:

Atlantic Coast Line—Tarboro, Greenville, Washington, Plymouth, Selma, Dunn, Kinston.

Norfolk & Southern: Belhaven, Beaufort, Edenton, Elizabeth City, Greenville, Winston; Morehead City, New Bern, Plymouth, Washington, Wilson.

Seaboard Air Line—Laurinburg, Lincolnton, Sanford, Shelby, Rockingham, Lumberton, Monroe, Henderson, Charlotte, Hamlet, Norlina, Maxton, Rutherdale, Wadesboro, Rockingham, Oxford.

Southern Railway—Albemarle, Burlington, Concord, Gastonia, Graham, Henderson, Hickory, Kings Mountain, Mooresville, Morganton, Mt. Airy, Newton, Oxford, Reidsville, Shelby, Statesville, Thomasville, Waynesville, Lexington, Goldsboro, High Point.

The exemptions are subject to review and revocation at any time. Concord's exemption is for thirty days to be supported by petitions that the double window service is not needed. The same applies to the stations of the Seaboard Air Line and the Norfolk and Southern roads. Others are backed already by petitions from citizens that the double window is not needed.

The only stations left in the State where the double window act will apply are Wilmington, Fayetteville, Raleigh, Durham, Greensboro, Salisbury, Charlotte, (Southern Station) Asheville, Winston-Salem and Hendersonville, the latter for the summer only.

Revenue officers seized over four barrels of bottled whiskey in the news and refreshment store of W. C. Pollard in the Academy of Music building today. Pollard came here several months ago from Atlanta and purchased the place. He told the officers he had just put off negligently the taking out of government license to handle liquors. He doesn't explain what he contemplated doing about the state prohibition law. That there was a consignment of three car loads of whiskey brought to Raleigh is the positive declaration of parties to government officials today. Ed Denton, many years the leading saloonkeeper here, is bondsman for Pollard.

Carolina Won Debate From Georgia.  
Special to Telegram.  
Chapel Hill, April 29.—By a 2 to 1 vote Carolina won the debate from the University of Georgia tonight.

The work of relief was speedily begun. Special trains were rushed from every direction, bearing physicians and nurses.

Owing to the fact that the train went over an embankment the telegraph wires were torn down and the report of the wreck had to be carried out by runners. Many persons were pinned under the debris, but as fast as they could be rescued they were carried into the adjoining fields where some of the fatally injured died.

The train left Utica in the forenoon, the teachers expecting to spend a week in the capital. First reports were brought from the wreck about nightfall.

Earthquake Shocks in Cuba.

Santiago, Cuba, April 29.—Great excitement was caused in this city and throughout the island today by earthquake shocks. No damage has been reported.

Caton's Pardon Revoked.

Raleigh, April 29.—Governor Kitchin revokes the conditional pardon of E. G. Caton, of Mecklenburg county, who was sentenced to eighteen months on the roads for immoral conduct, and who was allowed a pardon conditioned on good behavior, last October. His indignant neighbors, made and substantiated charges that he had resumed even more flagrant violations of the law.

## Chief Prisoner In Los Angeles Dynamiting Case; Where Quantities of the Explosive Were Found.

John J. McNamara, one of the men arrested in connection with the dynamiting of the Los Angeles Times building in October last, when a score of lives were lost, has been secretary-treasurer of the International Association of Bridge and Structural Iron Workers for several years and was in line for the presidency of that organization. The charge made against him has developed into one of the greatest sensations in labor circles in years. The detectives have seized as evidence large quantities of explosives which they took from barns alleged to have been rented by the prisoners. In the picture are shown four poses of McNamara and the barn near Indianapolis where dynamite was found.

## STEEL RAIL MILLS OF TENNESSEE COMPANY CLOSED

Special to Telegram.

Birmingham, Ala., April 29.—As a result of orders issued today to close the steel rail mills of the Tennessee Coal and Iron Company at Ensley 2,500 men will be thrown out of employment. It is believed that the shut down will be only temporary.

## M'LEAN ENDORSES CENTRAL HIGHWAY

Secretary of Greensboro Chamber of Commerce Thinks Proposed Highway will Prove Incentive to Further Road Improvement.

Secretary McLean, of the Chamber of Commerce, was seen yesterday regarding the sentiment as to the Central Highway across the state. Mr. McLean said:

"The Greensboro Chamber of Commerce, realizing the great benefits that have accrued to Guilford county on account of the construction of the one hundred and twenty miles of improved highway within its borders, heartily endorses the building of the proposed Central Highway from Morehead City on Beaufort harbor to the Tennessee line through the counties mentioned in the act of the General Assembly.

"Guilford county has already built its part of the proposed highway through the entire length of the county from its eastern to western border and the Greensboro Chamber of Commerce, knowing the great benefits that will accrue to the entire state from the building of this Central Highway, hopes that the business men of each county through which this highway will pass will give it their hearty support and co-operation, knowing that they will be repaid many times from a financial standpoint, as this proposed highway will undoubtedly prove an incentive to the further construction of improved roads radiating from each business center."

## DIDN'T LIKE THE PASTOR'S SERMON TOLD HIM TO GET

Special to Telegram.

McAlister, Okla., April 29.—Inensed over his remarks on last Sunday when he preached against dancing twenty-five prominent citizens of Indiana called on Rev. John L. Lindell, a Baptist missionary, today and told him that he must leave. They offered him a buggy and driver to transport himself to other parts. However, the minister was allowed to go to the residence of another preacher for the night.

## Work on State Experiment Farms

Special to Telegram.

Raleigh, April 29.—That the experimental and demonstration work in lettuce culture and in raising early corn, the dairying and other work on the State experimental farm in Pender county, and the similar work on the Edgecombe county farm in the cultivation of cotton, corn, peas and the raising of hogs as specialties are making admirable progress this season in the report of Dr. B. W. Kilgore, State chemist, in charge of all the State experimental farm work. He is just back from the Pender and the Edgecombe farms. This is the fifth season the State has been developing the Pender farm which was established for the benefit of the East Carolina truckers. Dr. Kilgore says the farmers in the sections where the farms are located take a deep interest in the work and seek to profit by the demonstrations. He says, though, that the Irredell county farm near Statesville is proving considerably the most effective in this matter of lively interest by the farmers thereabouts. This is due, he says to the fact that in the Irredell farm section there are great numbers of small farmers cultivating their own farms, and therefore alert for new ideas in the improvement of methods that will both increase yields and steadily improve the soil. On the other hand in the Eastern localities there is so much farming by negro tenants and by landowners who live in town and either rent or cultivate through superintendents thereby lessening the lively interest in these most important phases of intelligent, profitable farming.

Dr. Cole was passing in his buggy and he gave the lad medical attention.

## THREE MEN KILLED BY ELECTRICITY

Special to Telegram.

New York, April 29.—Three men were instantly killed and two others seriously burned by electricity this evening within fifteen yards of the New York Central Railroad Station at Spuyten-duyvil.

## DELIVERY WAGON WAS SMASHED BY TRAIN

Otis Apple, 12-Year-Old Boy, Driver of Wagon, Was Thrown to Ground and Painfully Injured—Will Recover Soon.

Northbound passenger train, No. 44 struck the delivery wagon of the Wall Mercantile Company at the Summit avenue crossing yesterday morning at 9:43 o'clock and smashed the wagon, hurling the driver, Otis Apple, to the ground. The driver, who is only 12 years of age, is a son of A. J. Apple. He was painfully, but not seriously hurt and the attending physicians believe that he will be all right in the course of a week or ten days. The lad was carried to St. Leo's hospital and given necessary medical attention.

Young Apple drove down Summit avenue heading towards town, as No. 44 came around the curve at Market street. The watchman, according to the testimony of bystanders, attempted to warn the lad of the danger of crossing and waved him back, but he either did not see or understand and drove directly across the track in front of the moving train. The engineer, John Wingate, applied the brakes and cut off steam as soon as he saw the wagon going upon the track but it was impossible to stop the train. The wagon was about half way clear of the track when struck and the rear end was splintered. The lad was hurled to the ground some distance away by the force of the impact. The horse was uninjured and did not appear to be frightened. The train was brought to a standstill about two car lengths beyond the crossing.

Dr. Cole was passing in his buggy and he gave the lad medical attention.

## PINNED BEHIND ENGINE FOR OVER THREE HOURS

Engineer Rufus B. Ferrell Had Both Arms Broken and Legs Badly Scalded in Accident Yesterday Afternoon.

When his engine turned over yesterday afternoon Engineer Rufus B. Ferrell was caught beneath his cab and remained imprisoned for over three hours. Despite the fact that both arms were broken and his legs scalded by the escaping steam the injured man remained calm and directed the work of rescue. He was brought to the city and hurried to St. Leo's Hospital. The accident occurred about 4 o'clock and the injured man was brought here about 8 o'clock last night.

Engineer Ferrell, Fireman C. N. Conrad and Conductor Steve Crews were taking an engine to Climax on the C. F. & Y. V. road to bring the Sanford-Mt. Airy train to the city, the engine on this train having failed. When about three and a half miles from the city the engine suddenly turned turtle, the engineer being caught in his cab, or rather beneath it. Conductor Crews was on the tender at the time and jumped, escaping with slight bruises. Fireman Conrad was also caught beneath the engine, but only one hand was injured and this was not serious. The engine was running backwards and was going at a fair rate of speed. The wheels of the tender left the track and caused the engine to overturn.

Engineer Ferrell lives at 508 Houston street and has a wife and several children. He expressed his determination to get well. The physicians had not completed their work of dressing his wounds at an early hour this morning.

The wreck train was brought here from Spencer and the overturned engine replaced on the track. Two or three rails were damaged and had to be replaced before the trains could proceed over the track. The train for Mt. Airy was delayed about eight hours because of the accident.

## FEDERAL TROOPS BEING HURRIED NORTH TO JUAREZ

Special to Telegram.

Chihuahua, Mexico, April 29.—The situation in Mexico took on a new phase this afternoon when it was learned that more than one hundred freight cars loaded with 1,000 federal soldiers and equipment left here over the Mexican National Railway today for Juarez. The troops were under the command of Gen. S. Rabago and were provided with field guns and ammunition for heavy action.

Since last Sunday gangs of workmen under military guard have been repairing the railroad north of here as far as Sauz, thirty miles from Juarez.

The troops were to go by rail to Suaz and march overland from there to Juarez.

No efforts are made here to conceal the fact that it is expected that the federals will be attacked by the insurgents before Juarez is reached.

The movement of reinforcements northward was being expected in Chihuahua at the time it was reported that the armistice was being arranged.

#### NEWSPAPER OPINION.

##### Not Limited to Childhood.

We all recall the joys of childhood, but do we recall the tragedies, such as having to follow the women around while they shopped?—Atlanta Journal.

##### Two Easy Marks.

The millionaires' annual, published at Berlin, shows that there are 8,300 millionaires in Germany. However, these are merely mark millionaires, not dollar ones.—Pittsburg Chronicle-Telegraph.

##### Rather a Dark Outlook.

##### One Born Every Minute.

"Money continues easy the world over," says a market report. Which is probably a broker's way of reminding us that there is one born every minute.—Providence Journal.

##### The Dynamite Case.

One thing has already been made clear in the dynamite cases, and that is that John J. McNamara was closely connected with the dynamite industry. Those men who suggest that enemies of labor had planted the hundred pounds or so of this explosive found in the building in which the iron workers' association had its offices only make themselves ridiculous. The dynamite was not planted in the barn, which was rented by McNamara. Enemies of labor did not plant the dynamite that was found in the baggage of McNamara's brother when he was arrested in Detroit, after having been trailed to that city from his brother's office here. Nor was the dynamite planted at Tiffin. The large quantities of dynamite discovered, together with the infernal machinery, the sawed-off shotguns and the slungshots, make it perfectly clear that there was a conspiracy to destroy. We think that enough is already known to prove that John J. McNamara knew about much of what was going on.

The really dangerous enemies of organized labor are not the men who fight it, but the men who condone such crimes as have disgraced this country, who advance ridiculous theories to account for them, and who refuse to condemn them. Such a statement as that made by Gompers does more harm to labor than such a man as Kirby could do in many years. This feature of the case is, it seems to us, the most important one. It is time for the members of the unions to set their faces sternly against this sort of thing. It is apparent that every one of these explosions has been connected with a labor trouble, and also that iron workers were involved in all these cases, except the Los Angeles case, that being a quarrel over the open shop question. And now when McNamara's brother is caught carrying dynamite about the country, and when hundreds of pounds have been captured, part of it having been found in two places under the control of John J. McNamara, any fair-minded man must see that a very serious case is presented.

The danger now is that the whole labor movement may be discredited. Believing as we do that under present conditions labor unions are a necessity, and that they may be a great power for good, it seems to us that the members of the unions and their officers have a very important duty to perform. We think, too, that the people generally ought to be on their guard against the danger of indentifying union labor with such outrages as these. There is no legitimate connection of any sort between crime and union labor as such. There are plenty of unions that have never been guilty of crime, and in all unions there are thousands of men who are honest, patriotic and law-abiding citizens. Further than this, a federal judge has recently held that mere membership in a union was not enough to make men responsible for any crimes of which the leaders and officers might be found guilty. So we need to keep our heads in such times as these, and especially do we need to remember that labor combinations are absolutely essential in these days of capitalistic combinations. For this rea-

son we think the union men ought to be the first to denounce such outrages as these, and that they ought not, through a mistaken sense of loyalty, to weaken and discredit a great cause.

There are some features in the handling of the case that are, we think, to be regretted. It would have been better had McNamara had a real hearing. This is the only thing in the whole affair that has been seriously criticized by the labor people. The Governor was right in honoring the requisition and in issuing the order of arrest. But after the man had been arrested an orderly and fair less summary method of procedure should have been followed. The result of the action taken may be to befog the case, and so to confuse men's judgement. As to the question of McNamara's guilt or innocence of the crime with which he is charged it will be well to reserve judgment until all the evidence is before the public. Finally, it should be said that the people—and not merely the detectives and the officers of the law—are determined to put an end to this dynamite business. The great issue is whether men are to be slaughtered in cold blood simply because they are involved—in the most indirect way—in labor troubles.—Indianapolis News.

##### Saved His Mother's Life.

"Four doctors had given me up," writes Mrs. Laura Gaines, of Avoca, Ia., "and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good. I will always praise them." Electric Bitter is a priceless blessing to women troubled with fainting and dizzy spells, backache, headache, weakness, debility, constipation or kidney disorders. Use them and gain new health, strength and vigor. They're guaranteed to satisfy or money refunded. Only 50c. at Fariss-Klutz Drug Co.

Griggs—I am a great believer in the magic number seven. "Success" has just seven letters, you will notice.

Briggs—And how about "Failure?"—Boston Transcript.

##### One Conductor Helped Back to Work.

Mr. Wilford Adams is his name, and he writes: "I was confined to my bed with chronic rheumatism and used two bottles of Foley's Kidney Remedy with good effect. The third bottle put me on my feet and I resumed work as conductor on the Lexington, Ky., Street Railway. It will do all you claim in cases of rheumatism." It clears the blood of uric acid. Howard Gardner.

Borden—Do you go in for society, Oiden?

Oiden—Well, Johnny has a gang, my wife has a set and I have a crowd.—Harper's Bazaar.

##### Never Out of Work.

The busiest little things ever made are Dr. King's New Life Pills. Every pill is a sugar-coated globule of health, that changes weakness into strength, languor into energy, brain-fag into mental power; curing Constipation, Headache, Chills, Dyspepsia, Malaria. Only 25c. at Fariss-Klutz Drug Co.

Doctor, I have for years been addicted to walking in my sleep. Is there any cure for me?

"Yes, Adopt a baby."—Chicago Record-Herald.

##### Safe Medicine For Children

Foley's Honey and Tar Compound is a safe and effective medicine for children as it does not contain opiates or harmful drugs. The genuine Foley's Honey and Tar Compound is in a yellow package. Howard Gardner.

Mr. Benham—I'll eat my hat.

Mrs. Benham—Try mine, dear. There is fruit on it.—Judge.

**PILES CURED IN 6 TO 14 DAYS**  
**PAZO OINTMENT** is guaranteed to cure any case of Itching, Blister, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

"How can you be so cold to me? I would die for you," sobbed his wife.

"I know it," he answered, cruelly. "You'd do anything to put me to expense."—Life.

##### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Take Hall's Family Pills for constipation.

Good results always follow the use of Foley Kidney Pills. They give prompt relief in all cases of kidney and bladder disorders. Try them. Howard Gardner.

Hostess—I don't think she's a nice woman at all. She's said some horrid things about me.

Caller—Never mind. She only repeats what she hears others say!—London Opinion.

A Spring Suggestion by a Trained Druggist.

Appendicitis and many other ills come from Constipation and over-loading with food which the system cannot care for. The bowels must be cleared and antisepsis to give their normal functions and this should not be done by strong Cathartics, as every physician will tell you. Vick's Little Liver Pills have the bowels and mild stimulation to the lazy liver and thus cure trouble in adults and children.

##### The Sound Sleep of Good Health.

Can not be over estimated and any ailment that prevents it is a menace to health. J. L. Southers, Eau Claire, Wis., says: "I have been unable to sleep soundly nights, because of pains across my back and soreness of my kidneys. My appetite was very poor and my general condition was much run down. I have been taking Foley Kidney Pills but a short time and now sleep as soundly as a rock, my general condition is greatly improved, and I know that Foley Kidney Pills have cured me." Howard Gardner.

"I saw Peckham today," remarked Nagget, "and he was very drunk."

"Well, there's some excuse for him," replied Mrs. Nagget. "He lost his wife last week."

**FREE TO YOU—MY SISTER** Free to You and Every Sister Suffering from Woman's Ailments.

I am a woman. I know woman's sufferings. I have found a simple, free of any charge, my home treatment for all full instructions to any sufferer from woman's ailments. I want to tell all women about this cure—myself, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home with the help of a doctor. Men cannot understand woman's suffering. When we women have experience, we know better than any doctor. I know that my home treatment is safe and sure for Liver Complaints, Weak Heart, Rheumatism, Falling of the womb, Periodic Spasms, Periodic Paroxysms, Uterine or Ovarian Tumors, or Growths; also pains in head, back and bowels, bearing down feelings, nervousness, crevices, swelling up of the body, rheumatoid disease to cry, hives, warts, ulcers, kidney, and bladder troubles which caused by weaknesses peculiar to our sex.

I want to send you a complete ten day's treatment entirely free to prove to you that you can cure yourself. Just send your name and address, tell me how you suffer if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost, my book, "WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations, should you wish to have it, and learn to think for herself! Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all old or young. To mothers of babies, I will explain simple home treatment which really cures all babies. To young girls, I will explain how to cure Green Sticks and other diseases. It cures all forms of Disease from Painful or Irregular Menstruation in young Ladies, Plumpness and health always results from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell me sufferer that this cure really cures all woman's diseases, and makes women well strong, plump and robust. Just send us your address, and the free ten day's treatment is yours, also the book. Write to-day, as you may not see this offer again. Address

## MANY CONVENiences OF TODAY UNKNOWN A FEW YEARS AGO

Business Methods Constantly Changing to Keep Abreast of Times—Present Day Folk Little Realize Opportunities.

The people of this age little realize the number of conveniences that are now enjoyed as compared with those of a few generations back. The telegraph, telephone and overland limited have served to bring the different parts of the country so closely together and in such easy communication the one with the other that it is hard to appreciate the disadvantages of those living a few years ago. Months were required to go from point to point or to communicate the news from one section of the country to the other, where now minutes and hours suffice.

Newspapers have helped and are helping more than any other factor in drawing the world closer together. The newspapers have ever been on the alert to employ the most modern methods and take advantage of every opportunity to give their patrons and the public the best possible. Not only from a news standpoint has progress been made, but from the advertising as well. The readers of newspapers have long since learned that when they are in the market for articles of almost any conceivable description, they can by referring to the leading newspapers find the advertised just what they are looking for. There was a time before this marked progress along advertising lines when the merchant was almost wholly dependent upon the trade that he had secured through the small circle of his own personal friendship and influence. New customers were scarce, competition was not as keen, for the consumer had nothing to attract them from their accustomed "market places," and they continued year in and year out to patronize the same old stands. The enterprising merchants and newspaper men got their heads together and the ad-

vertising of merchandise was begun. A complete transformation in the world of commerce has been brought about. Competition has become keener, and the merchant who succeeds today realizes that it is necessary for him to keep before the people. His ads must be attractively written and illustrated and there must be something to catch and hold his trade, or else he will find his patrons drifting to the stores of his competitors.

No particular class of advertising has grown more rapidly or become more popular than the "want ad". The want page of the daily newspaper is fast becoming one of the most popular and most carefully read. It is of interest to those who have something to sell because through the medium of the want column they can find buyer. It is of interest to those who want to buy something because they likewise find some one who is ready to dispose of the article they are looking for. The want page is truly the connecting link between buyer and seller.

Many newspaper patrons probably do not appreciate the conveniences and privileges that they enjoy and the facilities that are offered them through this medium of newspaper advertising. When it is considered that tens of thousands of people can be reached through the medium of a want ad and at a cost averaging about twenty-five cents, the price seems exceedingly small. The wide awake public is coming more and more every day to realize this advantage that is offered them, and they no longer walk the streets in search of houses and other of their needs. They patronize the want column.

In Greensboro, The Greensboro Telegram is the leading medium for all your advertising wants.

## THURSTON'S NEW YORK THEATRICAL LETTER

(By JAMES GRANT THURSTON.) Special to Telegram.

New York, April 29.—Profit sharing among notable theatrical people is a new phase of stage effort.

The Lyceum Players, a band of thirty actors and actresses have conceived the notion of passing a pleasant, profitable summer with a chance of effecting a permanent organization noted for the quality of its plays and players. Walter Hampden and Kathryn Kidder the moving spirits, are encouraged by Daniel Frohman.

The thirty will inaugurate their scheme at Rochester. Each is to receive a salary and to share in whatever profits accrue.

If the scheme proves successful the Lyceum Players will tour the principal cities during the regular season.

Elizabeth Marbury, play broker and woman of affairs, for the annual visit to Europe, will take with her a scheme for grafting French technique upon American scenarios in the production of American plays.

"For years," said Miss Marbury, "I have pursued with much enthusiasm the development of the American drama. And of all phases of the wonderful growth of our country none is more marked, and none is more interesting than the growth of the American drama."

"Some brilliant French dramatist for example, a play full of subtle cleverness, which appeals to Paris, but is justly swamped here because some bright clever young chap over here comes along with a "Get Rich Quick Wallingford" or a "Seven Days" that is flavored with Americana that appeals to our audiences. There are turned down hundreds of spirited fine American plays every year, I believe, that would be successful contributions to our drama, were they inoculated with a little of the foreign technique in which American dramatists will need a little experience to collaborate with their native insight and cleverness."

Aspiring young men and young women who want to shine on the stage have been appealed to by circulars signed "Frohman" telling them "how to become artists while you wait." Here is a specimen letter received by one young woman:

"Dear Miss—How would you like to star at the head of one of our first class companies? We are now forming organizations to tour the country in standard and Shakespearian plays, including condensed version of Romeo and Juliet, Camille, Madame X. East

Lynne, and Ten Nights in a Barroom. The expense to you will be very light and I command the choicest time in all the first class houses—none other played. I have made many stars and have seen none so promising as you, so what do you say? Just \$1,000 in cash will do the trick. Let me hear from you if you don't. Yours with admiration.

The police are trying to locate the man.

Caruso, the famous singer has returned to Italy. He has been absent from the Opera House since February. He has lost twelve weeks of his engagement. The loss to him foots up \$60,000. The Metropolitan Opera House must have also been a heavy loser, as the nights of his appearances were crowded. His appearance any night added \$5,000 to the receipts.

Fritz Schell-Fox, the gifted light opera singer, is going to locate at Big Stone Gap, Va., in the intervals between her engagements on the stage. She will build a \$50,000 house, the plans for which were prepared by George H. Gray, of Louisville.

They provide for a structure of stone and stucco, having a frontage of 100 feet

and a depth of 57 feet, and containing forty rooms. The interior will be finished in hardwood and the house, which will have a steam-heating plant installed, will cost about \$50,000.

William Gillette the author and actor, has finished his American engagements. He has been intending to go to London and take part in the Coronation performances which will be attended by the King and Queen.

"The Gamblers," Charles Klein's dramatic protest against State's evidence and other things, has had a remarkable run at Maxine Elliott's Theatre. This is the only serious drama of the season which recorded 200 consecutive performances at one house.

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. In the course of a week I noticed the piles began to disappear and at the end of six weeks they did not trouble me at all. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, G.

## BROWN ANSWERS HIS DETRACTORS

To the Citizens of Greensboro:  
Some of my friends have shown me the large advertisement of Mr. R. A. Gray, which appeared in the Daily News, in which I am asked to explain my letter heads.

Mr. Gray has for years been a bitter political enemy of mine and I would not take the trouble to answer him were it not for the fact some of the citizens of Greensboro might be misled by his venom.

The Commissioner of Internal Revenue of the U. S. Government defines a tobacco manufacturer as one who manufactures his own goods or who has his own private brands manufactured under contract. I quote this from memory, but this is substantially correct. Under the latter clause of this definition I am a manufacturer of tobacco, as I own my own brands and have my tobacco manufactured for me by contract. At the time my letterheads were lithographed most of my tobaccos were manufactured at Danville, but more recently most of them have been manufactured at Bedford City and Lynchburg.

I conduct and have conducted for 15 years in Greensboro a clean, straight business. I have furnished to my traveling men sample cases of tobacco and cigars at a loss of \$1.75 on each case furnished unless considerable sales were made by the traveling man and when orders have been received I have shipped honest tobaccos manufactured by others under my brands. So much for my business.

Such is the ghastly animosity of this man Gray that I am informed that he is trying to go back 23 years and bring charges against me for some occurrence which is said to have happened when I was 15 or 16 years of age. I do not

care to burden the public with my personal history, but as this ghoul is trying to destroy me on the streets I think it may not be improper for me to do this.

At the age of 10 years my father died leaving my mother with two children whom she was not able to support.

I was placed in the Oxford orphan asylum where I remained until I was about 14 or 15 years old and then went to Asheville. While in Asheville I fell in with bad company and once while intoxicated it is said I took some change out of the cash drawer of my employer. If I did such a thing I have no recollection of it, but I made up my mind that I would make a man of myself and since that time I have fought against the temptation of drink in my own life and in the community. I have always been open in acknowledging my faults and have no skeletons in my closet and defy any man to point to a dishonest or dishonorable act in my life.

Now, gentlemen, the case is with you and I trust my friends and the citizens generally will place the stamp of disapproval upon the methods of blackguardism in politics. Of course I could throw mud at this particular enemy and some of my other enemies, but I have determined to conduct this campaign on a high plane and so far as anything I may say, or any of my friends may say, who think well of my candidacy, let Mr. Cutchin and his friend, Mr. Gray, continue to enjoy any good reputation that they may have built up in Greensboro in recent years. I am proud of some of the enemies I have made and consider their hostility a decoration of honor.

Very sincerely,  
E. A. BROWN.

### R. A. Gray Asks Pointed Questions

To the Voters of Greensboro:

In answer to Mr. Brown's card in yesterday's Record, in which he called attention to the stories being circulated as to his character, etc., that he, Mr. Brown, has no explanation to make. I have never used any "venom" against Mr. Brown, but have always used the best influence I could against cliques.

**Missionary Meeting.**  
The Ladies' Aid and Missionary Society of Westminster Presbyterian church will meet Monday at 3:30 p. m. at the home of Mrs. W. C. Denny, 223 East Lee street. It is the time for the thank offering for foreign missions.

**Engagement Announced.**

Mrs. E. Sternberger entertained most delightfully yesterday afternoon at her home on Summit avenue, the occasion being for the purpose of formally announcing the engagement of her niece, Miss Sara Sternberger, to David Margolius, the marriage to take place in June. The reception yesterday afternoon was on an elaborate scale, every detail of the afternoon having been carefully planned and skilfully executed.

**To Attend State Federation.**

The State Federation of Woman's Clubs will meet in Asheville Tuesday afternoon and a large number of Greensboro club women are going down to attend the sessions. Mrs. G. W. Whitsett and Mrs. A. B. Kimball will leave tomorrow, to attend a meeting of the executive committee Tuesday morning. Others who will go down to attend the meeting are Mesdames R. H. Crawford, Al Fairbrother and Andrew Joyner from the Woman's Club, B. C. Sharpe and R. L. Justice from the Reviewers' Club, Miss Mary Petty and Mrs. E. D. Broadhurst from the Friday Afternoon Book Club, Mrs. E. Sternberger and Miss Meta Beall from the Playground Association.

Now, gentlemen, the case is with you and I trust my friends and the citizens generally will place the stamp of disapproval upon the methods of blackguardism in politics. Of course I could throw mud at this particular enemy and some of my other enemies, but I have determined to conduct this campaign on a high plane and so far as anything I may say, or any of my friends may say, who think well of my candidacy, let Mr. Cutchin and his friend, Mr. Gray, continue to enjoy any good reputation that they may have built up in Greensboro in recent years. I am proud of some of the enemies I have made and consider their hostility a decoration of honor.

Very truly,  
R. A. GRAY.

**TO THE CITIZENS OF GREENSBORO.**

I wish to state I started out to run my campaign in a high business-like manner, and intend to continue it so until the votes are counted on next Tuesday night. My friends are solely responsible for newspaper articles. I am not a candidate of any ring or clique. I am for the people and the city of Greensboro.

Again thanking the people for their support on last Monday, I trust they will see fit to honor me with the office to which I aspire on next Tuesday.

Respectfully,  
JOHN R. CUTCHIN.

## BERNAU'S THE POPULAR JEWELER

Clock 100 Years Old.

R. R. Hill, of the Stove and Furniture Exchange has recently secured an old time clock, it being evident that the clock is more than 100 years old. The timepiece was made entirely by hand, the wheels and cogs being of wood. The works are located in a handmade stand some eight feet high. Mr. Hill procured the clock from Randolph county. He has also secured a number of pieces of antique furniture.

## Herpicide

IS A MOST EXQUISITE AND DELIGHTFUL HAIRDRESSING

Hair that is neglected shows it quickly. It is uneven, dull, brittle and the scalp usually infested with dandruff. Hair in this condition is unsightly and cannot be made to look neat, no matter how carefully arranged. The above simple suggestions relative to the care of the hair will, followed, correct all of this.

The hair takes on an astonishing luxuriance and beauty which are always associated with the use of this wonderful scalp prophylactic. With the removal of dandruff and the restoration of a healthy condition of the hair and scalp, the hair ceases to fall out and nature asserts herself in a manner which is almost at once noticeable. Try it and see.

Newbro's Herpicide destroys the invisible microbial growth which causes dandruff, and keeps the head clean.

Newbro's Herpicide was the first preparation made to kill the dandruff germ. It has for years been known as "The Original Dandruff Germ Destroyer."

Any preparation for which the same claims are made is trading upon the reputation of Newbro's Herpicide and is an imitation. Don't take something just as good.

Insist on having genuine Herpicide.

### Your Children Suffer If You Are a Drunkard

ARE you giving your children the right start? True, you are supplying them with clothing and education, but—what kind of a moral example are you setting? Do your actions speak of inebriety when you meet them? Is your breath liquor tainted when you greet them? It's your duty to put your children right with the community and just here the Keeley Institute of Greensboro, N. C., enters.

The Keeley Institute will help you put your children right by putting you right. It will re-establish the respect that your inebriate habits have lost for you. Thousands of men have found help in our treatment.

Drunkenness is a disease. You can't fight it alone; you are fighting against hope. You need help. *Four weeks at the Keeley Institute will kill your craving for liquor.* The treatment is scientific. It removes the effect by taking away the cause. It kills the desire for liquor by taking away the appetite for alcohol. And, there is something more than mere treatment administered by the Keeley Institute at Greensboro, N. C. There's a character behind the institution—personality that has put new hope, new vigor into the thousands of unfortunates that have been treated. It will give you a firmer grip upon yourself, and the will power to resist temptation. It will make you a better, better man. Send for our book. It describes the many cures we have effected. Write today. Your letter will be treated as strictly confidential.

#### WHO PAYS THE LICENSE TAX?

"The saloon-keeper doesn't pay it. He produces nothing. As far as he is concerned he has nothing to pay it with. Who pays it then? Those who can least afford it and those of whom it ought to be least expected. The drunkard's family pays the tax. See the poor woman, pale and wan and wretched, wearing her life out over the washboard. What is she doing? She is paying the tax. See the little boy going along the street half clad, with his feet protruding through the holes in his shoes, and with degradation written on every line of his face? What is he doing? He is paying the tax. Equity is a great word in law, and in the constitution of the State. Is there any equity about that? We have boards for the equalization of taxes. What is the board to do in such a case as that? What can conscientious voters do in the matter but VOTE DRY?"

#### ALCOHOL AND CONSUMPTION.

Until recent years alcohol was considered by many physicians as almost a specific for tuberculosis. The contrary view, however, seems now to be rapidly gaining ground in the profession, and many leading physicians hold that alcoholism definitely predisposes to tuberculosis. Dr. Brouardel, the famous French expert, in his address before the tuberculosis congress in London took this view. Dr. Hector Mackenzie, one of the leading British physicians, also believes alcohol to be a powerful predisposing cause of tuberculosis. Osler, the author of a much-used American textbook on the practice of medicine, says that chronic drinkers are extremely liable to the disease.—Educator.

#### A DOUBLE KNOCK.

"In knocking down his wife the man knocked me out of the liquor trade." In these words Mr. F. N. Charrington, well-known in connection with religious and temperance work in East London,

closes his account of the way in which he was led to sever his connection with the great brewing firm of Charrington, Head & Co., in which he was a partner. The man in question was drinking in a public house which Mr. Charrington happened to be passing. His wife just at that moment pushed open the door, and appealed to her husband for money to buy bread to feed their starving children. By way of answer her husband felled her to the ground.

Mr. Charrington noticed that the sign board bore the name of his firm. He reflected that this particular house probably furnished many such cases, and that the same was true of hundreds of other houses owned by the company. The responsibility was more than he could bear, and from that hour he resolved to give up his partnership, worth about 20,000 pounds a year.

Gossip is not Gospel. What have we to do with difficulties if God is with us?

The devil expects to be defeated; do not disappoint him.

This is the grand arena where Jesus Christ destroys the works of the devil. We are God's keepsakes, but even God Almighty can not keep what is given to Him.

No sin is so interwoven with our nature but God can break the web, and liberate the soul. "Able to save . . . to the uttermost," covers every case.

He who is false to a present duty breaks a thread in the loom, the effect of which he may not see till the weaving of a life-time is revealed.

Concord Will Get  
a Gas Plant

Concord, April 29.—Score another enterprise for Concord! A telegram was received here this morning from Sydney Kenny of Philadelphia, stating

that he would accept the franchise for a gas plant here as amended by the committee from the board of aldermen. Mr. Kenny made application for the franchise about a month ago and the matter was referred to a committee of aldermen. The only change they made in the original franchise was to limit it to 60 years, instead of making it perpetual, and to allow a maximum rate of \$1.50 for 25 years and at the expiration of that time the aldermen will have the authority to reduce it if the business of the company justifies a change.

Under the terms of the franchise work is to begin within twelve months and the line is to be completed on the principal streets of the city within two years. Mr. Kenny agrees to put up a sufficient bond for the fulfillment of the terms of the franchise and to insure the city against damage to the street while the plant is being erected.

Mr. Kenny and associates will be in Concord within a few days to go over the situation with a view to beginning operation.

### Society Notes of Washington

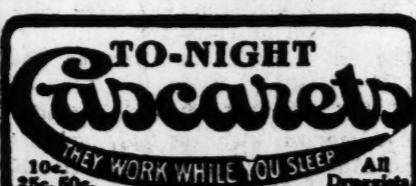

(By CONSTANCE CARRUTHERS.)

Washington, April 29.—Secretary of the Treasury McVeagh and Mrs. McVeagh were hosts at dinner Thursday evening to one of the most brilliant assemblages of Society that has gathered at the capital during the season.

President Taft and Mrs. Taft were among the honored guests and when the chief executive and first lady of the land joined the guests at the beautiful McVeagh home, another precedent was broken. Of all the unwritten laws which bind the social life of Washington, none has been more rigidly observed than the one which says that the President and his wife shall dine only with the cabinet officials and with each

of them only once a year. Earlier in the season Secretary and Mrs. McVeagh gave their dinner for President Taft and Mrs. Taft. It was a great disappointment to them that the dinner could not be served in their handsome new home, but it was not completed at that time. Now they are located in the new home and the dinner was given in honor of the president and Mrs. Taft. Besides, the large number of Washington society leaders, many out-of-town persons were guests of the Secretary and Mrs. McVeagh. Mrs. Hobart Chatfield Taylor, Mr. and Mrs. James Waller, Jr., Mrs. Edward Ryerson, and Miss Caroline Kirkland of Chicago, were among the guests from a distance.

The marriage of Miss Lena Tillman, daughter of Senator and Mrs. Benjamin R. Tillman to Mr. Charles Summer Moore of Atlantic City, took place in the church of Our Savior at Trenton, S. C. Miss Tillman's bridesmaids were her

### Survivor of Alamo Died in San Antonio

Special to Telegram.  
San Antonio, Texas, April 29.—With the death of Mrs. Ann Webb yesterday another person more than 100 years old and a resident of San Antonio has passed away. Within the past three years more than a half dozen people whose ages were beyond the century mark from one to eight years have died in this city, many of them having lived here for three-quarters of a century. Among these was Senora Candelaria, the one woman who was in the Alamo when its 184 defenders were massacred by Santa Anna's men. She delighted to talk of her experiences, particularly of the exciting time when she was caring for Bowie after he was wounded in the Alamo siege. She always insisted that the names of four Mexicans, one of them being that of her husband, should be added to the list of the Alamo defenders. Senora Candelaria was an inveterate cigarette smoker and consumed great quantities of coffee, but notwithstanding this she retained all her faculties to the time of her death. It is maintained by those who have given attention to the matter that more people live beyond the century mark in this city. Residing here now are a half dozen or more whose ages are from two to five years above the hundred.

BY THE SPARTANS**

**Their Work in Saturday's Game Was Out of Tune—Lost to Patriots 7 to 1.**

The third and final concert of the series given at Cone Athletic park last week by the Spartanburg Musicians was pulled off yesterday afternoon with Bill Laval, Victorious Vickory and Pitcher Hill as Chief Comedians. The final event might not be inaptly termed a comedy-farce or a "comedy of errors." The program yesterday was not altogether what had been promised, and was rather poorly rendered, the discords and untuned instruments grating rather harshly on the nerves of the esthetic lovers of harmony in music and sport in attendance.

The story of how Greensboro made seven runs to Spartanburg's one is the long one—and likewise a sad one for Spartanburg. Loose team work, many errors and poor pitching form a combination that gave the Patriots the game and humiliated Billy Laval and his band of musicians.

Hill started in to do the twirling for the visitors, but Rickard nailed one of his first balls on the nose for two bags. Laval's error and a base on balls filled the bases. Bentley hit to short stop and forced Rickard at the plate. Clapp singled and Doyle scored. The side was retired with the bases full. In the third Fuller hit, Bentley singled and advanced Fuller to third. Westlake threw badly to second to catch Bentley and Fuller scored. In the fifth errors, hits and bases on balls filled the bases, but at this juncture Vickory took the box and prevented any one's scoring.

It was in the sixth that the Spartans went up in the air. Lowman and Corwin singled. Nippert hit an easy one to Vickory, who threw wild to first, and before the ball was returned the three men crossed the rubber. In disgust Laval sent Vickory to the bench and went on the mound, but Williams' error and Fuller's single gave Greensboro another run before the side was retired. Bases on balls off Laval contributed another run to the locals in the eighth.

Spartanburg's sole run was made in the fourth inning, when Walker drove the sphere against the left field fence, for three sacks, scoring on Williams' sacrifice.

The infield work of the locals was splendid, and it grows better with each game. Fuller and Bentley did good work with the stick.

Among the Spartans, Walker has been the star of the series. His batting during the season has been almost phenomenal. Out of three times at the bat yesterday, he got a three base hit, a two-base hit and a single.

No Games Here This Week.

The Patriots will go to Winston-Salem tomorrow for a series of three games with Clancy's collection of college players, known as the Twins. This team will no doubt be one of the leading contestants for this year's pennant. Clancy has brought together a husky bunch of men and has a good bunch of pitchers.

After a three days stay in the Twin City, Manager Doyle will journey with his team down to Greenville for the last three days of the week. Dick Smith is managing the Greenville team this year, and the fans of the town claim for him a very dangerous collection of ball players.

Greenville will be at Spartanburg Monday, Tuesday and Wednesday, while Charlotte will play in Anderson. The last three days of the week Anderson will be in Winston and Spartanburg in Charlotte.

Next week Greensboro will be at home—the first three days Anderson will be here, and the latter part of the week it will be Greenville.

THREE HOME RUNS IN GREENVILLE-ANDERSON GAME.

Greenville, S. C., April 29.—In a game featured by three home run hits over the fence and one which was highly uncertain until the end of the sixth, Greenville won from Anderson again this afternoon by the score of 6 to 3. To Blackstone, Doak and McCarthy, belong the credit for the home runs. Trammell did splendid work, striking out nine men and worked beautifully out of a hole in the seventh, when he held the visitors down, though they had the bases full and only one out.
